Poziv za učešće na pripremama reprezentacije Srbije

2009

Kovačević Marku

HEAD COACH:

Our biggest challenge is becoming a TEAM as quick as possible. We are all individuals with one common goal to win a gold medal and move up to the next level. Every player will have to except his role. Some will be asked to do the job for us offensively some defencively, some will play on the power play others asked to kill penalties, everyone will be asked to sacrifice there bodies and leave there personal agendas at home for the good of the TEAM. There will be no special treatment every player will be treated the same.

Once again our goal is the gold and it will take everyone to be at there best and more discipline then we ever have been in the past.

Thanks and see you soon.

David Hyrsky
